Broadway Reconstruction Traffic Changes

On Tuesday and Thursday, October 10 and 12, 2006, Broadway will be closed to all through traffic from High Street east to Olive. Cornejo and Sons Construction will have concrete trucks lined up on Broadway to pour the north side driving lane on the east end of the project. Therefore, traffic on Broadway, east of High will be detoured to 7th Street during this planned work.

The contractor will allow the residents along the south side of Broadway to have access to their properties during this scheduled construction.

In the event of inclement weather, the contractor will postpone the concrete pour accordingly and the road closures will occur on a later date. Roadway improvements are moving along according to schedule with continued sidewalk construction, seeding, tree planting and other details of the project planned prior to completion in December of 2006.
