City plans street maintenance in southwest Newton

The City of Newton Street Division will be applying a slurry seal to streets in the southwest part of the city this summer. The area is generally bounded by South Pine on the east and West First on the north. It will be necessary to close scheduled streets during application and drying, usually eight to 10 hours. Affected residents will be notified of the street closing one business day in advance of the work by door hanger placed at the front door. Residents should remove parked vehicles from the street prior to closing and keep vehicle and pedestrian traffic off the new surface until the street re-opens. There is no cost to the property owner associated with this project. The following streets are slated for treatment:

- Southeast Second (Pine to Old Main)
- Southwest Second (Old Main to Ash)
- Southeast Third (Pine to Old Main)
- Southwest Fourth (Ash to the west end)
- Southeast Fifth (Pine to Washington)
- Southeast Sixth (Old Main to east end)
- Southwest Sixth (Plum to Elm)
- Southwest Seventh (Old Main to Poplar)
- Southeast Ninth (Old Main to Allison)
- Southeast 12th (Harrison to Old Main)
