Newton, Kansas 67114-0426

## Press Release

Release date: 10-30-07

For more information, contact: T.W. Anderson, (316) 284-6089

### Official airport weather information now online

Up-to-date and historical weather information from the federal weather station at Newton City/County Airport is now available to the public.

Citizens can view instantaneous, live condition reports online at [www.saiawos3.com/EWK/sai.html](http://www.saiawos3.com/EWK/sai.html). Weather reports for the previous 48 hours are also available.

"Perhaps the greatest feature of this weather information system is the ability to look back up a number of days," said Airport Manager T.W. Anderson. "Many times local farmers have called the airport to ask what the rainfall was, or how high the winds got. Insurance adjusters have also called to determine when a wind gust might have caused property damage. That information is now available with a click of the mouse."

The hardware and software for the system were funded by a grant from the Kansas Department of Transportation, Division of Aviation.
