July 28, 2026

# 2027 Budget – Stabilizing Year

Intentional focus on:

- Identifying opportunities to optimize spending and work more efficiently while keeping the organization strong and effective.
- Sustaining investments in people, services & infrastructure.
- Continued support for sustainable growth from a conservative approach.

# Strategic Priorities

SUSTAIN EXCEPTIONAL  
PUBLIC SERVICE

CREATE A WELCOMING  
PLACE TO CALL HOME

PLAN AND GROW FOR  
THE FUTURE

# Our Approach to 2027 Budget

## Personnel Budgets

- Maintain merit (3%) & COLA increases (3%)

## Department Budgets

- Remain as flat as possible.
- Increases reviewed with opportunities to reduce in other areas.
- MER transfer requests reviewed for savings opportunities.

## Contractual Budgets

- Identified cost savings through:
  - Renegotiations
  - Bundling of services & combining across departments
- Pursuing grants & cost-sharing
- I.T. evaluate improvements to streamline/enhance service
- Reduce operational budget lines using 3-year trend model
- Credit card fees & pass-throughs
- Transfers out

# What's Different about 2027 Budget Process

- Overview of all funds and how they interconnect
- Less focus on departments individually
- Holistic look toward savings
- Cash funding philosophy
  - Municipal Equipment Reserve (MER) Transfers
  - Utility Transfers

# External Challenges

- Federal and State mandates
- Debt obligations of the City for aging infrastructure
- Balancing the services residents expect with the tax and fee levels they are willing to support
- Benefits/costs of prior City Commissions' commitments in projects
- Competition with neighboring communities
- Costs associated with software, hardware, and data security
- Increasing maintenance costs and deferred capital needs of City-owned buildings
- 14% of staff are retirement eligible

# Potential Legislative Impacts

- **Protest Petition and Tax Limits:** Bills like House Bill 2745 restrict taxing jurisdictions to no more than 103% of the prior year's property tax revenue if a successful petition of 5% of voters is triggered. This severely constrains local spending power, making it difficult to keep up with inflation.
- **Bonding and Debt Impact:** Recent legislative measures targeting local property taxes lack exemptions for existing bonding and debt obligations. This threatens ongoing infrastructure projects and Capital Improvement Plans (CIP) funded by general obligation bonds.
- **Revenue Neutral Rate (RNR) Changes:** The state has consistently debated repealing or adjusting the RNR notice and hearing requirements to establish an alternative cap.
- **State Structural Imbalance:** State-level income and tax cuts have led to forecasted structural deficits. Local municipalities face the risk of reduced state-shared revenue or downloaded service costs as the state attempts to shrink its general fund expenses.

# Budget Outlook and Resilience Model

## Revenue Assumptions- projections

- Ad valorem revenue is projected to grow approximately 1%.
- Sales tax revenue is projected to grow 1-2%.
- Charges for services are projected to increase 1%.
- Utility revenue is projected to remain flat.
- Transient guest tax collections are projected to remain flat.

# Bond and Interest Fund Review

# Airport Budget

## Funding the City/County Airport

### **Option 1 - Increase the City's dedicated airport levy**

- Raise the City's allocation by an additional \$26,000. Request County match the increase

### **Option 2 - Reallocate mills from the General Fund**

- Shift mills out of the General Fund to Airport Fund. Total levy unchanged; no new burden on the taxpayer. Request County match the increase

### **Option 3 - Hold the levy and reduce expenditures**

- Leave the allocation at 0.635 mills and balance the fund by reducing airport expenses (similar to 2024/2025).

### **Option 4 - Ask County to match City and hold levy**

.

# How does CPI affect the City's levy?

What is CPI-U?

- Published by the U.S. Bureau of Labor Statistics, it's the price of what households actually buys like housing, food, fuel, & insurance.
- Indexed so 1982-84=100. We use the calendar-year average, matched to each budget year.
- It answers one question: what does a dollar still buy?

Each mill increased by \$7,679

## **Scenario 1 Assumptions- Revenue Neutral Rate**

- Special Liability, B&I, Airport and Library maintain Mil Levy at 2026 level
  - Library to meet proposed budget
  - Special liability, B&I, Airport to maintain health of fund
- Needed cuts come from General fund only.
  - Reduction of \$121,500 needed
  - Could be offset by passing on a portion of CC fees and not including any budget enhancements

## **Current Budget Mil Rate for City 2026 = 72.353**

- Total Ad Valorem = \$13,085,397
  - General Fund      56.528 = \$ 10,223,368
  - Special Liability    0.356 = \$    64,384
  - B&I                    9.235 = \$1,670,195
  - Airport                0.635 = \$   114,843
  - Library                5.599 = \$ 1,012,607
