

Stormwater Manual Update – City of Newton

1.1 Summary

- A. The City of Newton has adopted the **Wichita/Sedgwick County Stormwater Manual, Volume 2**. This manual will replace Newton's current **Construction Site BMP Manual** and **Post-Construction Site BMP Manual**.
- B. To view Volume 2, please visit: Wichita/Sedgwick County Stormwater Manual | Sedgwick County, Kansas. (<https://www.sedgwickcounty.org/public-works/stormwater-management/wichitasedgwick-county-stormwater-manual/>)
- C. Developers, contractors, and engineers should note that the **Newton Stormwater Checklist and the \$75 annual SWPPP review fee** is still required. In addition, Newton has made the following updates to the geometry standards in Volume 2:
 - **Max side slope ratio: 4:1**
 - **Minimum bottom width (swales): 2 feet**
 - **Maximum top width (swales): 8 feet**
